Joseph
“It’s amazing that these containers still remain clear after every manner of food has been stored in them. The embedded Quantity markings have also not faded away over the years, AND the square corners are a little rounded on the inside thereby making the container easy to clean thoroughly. The outside square corners make for little or no wasted space in my walk-in cooler! An EXCELLENT product.”

Joseph
“Lid design and manufacture is excellent! The lids on my other Hubert containers still fit tightly, even after eight years!!!”
